MAKE COMMISSION DISAPPEAR

Without Changing the Nature
and Spirit of the Game

And many more!

Product Overview

EZ Baccarat has solved the principal challenge of Baccarat: how to make the commission disappear without changing the game. The solution uses advanced mathematics to solve this key problem. The solution enhances revenue from existing customers. It does not change the drawing rules of the game, yet **can deliver 40% to 60% more hands per hour**; do the math!

Method Benefits

- Increased Number of Decisions
- Less Dealer Errors
- No Disputes with Players
- No Forgiven Commission

Product Features

- No Change in Drawing Rules
- Easier to Deal
- Much Faster
- Player's Experience Less Stressful

Operating Instructions

EZ Baccarat eliminates the taking of the 5.00% commission after every bank winning hand without modifying any of the existing drawing rules of the standard game. Instead of taking the commission when the Bank wins with a total of seven consisting of three cards - the Bank hand is a "push", or "barred". The Player hand and Tie bets lose, as normal. This simple modification builds the commission right into the dealing of the game.

Optional Side Bets

Panda 8

The Panda 8 is when the Player wins with a total of eight consisting of three cards. The Panda 8 occurs about three times a shoe and pays 25 to 1 with a house edge of 10.2%.

Dragon 7

The Dragon 7 is when the Banker wins with a total of seven consisting of three cards. The Dragon 7 occurs about twice per shoe and pays 40 to 1 with a house edge of 7.6%.

EZ TRAK™ LCD Baccarat Scoring System

No Baccarat table should ever be without it! EZ TRAK is an LCD-based system that provides players with valuable statistical data to calculate trends and percentages. EZ TRAK will enhance your players' Baccarat experience and provide the important information they need to make the bets they want. EZ TRAK can be automated with most electronic baccarat shoes so that no dealer intervention is required.

Key features include:

- Traditional 5 Method Asian Scoring and a simplified format are available.
- Player/Banker colors are customizable.
- Table Game Min and Max Amounts are integrated into the LCD display to eliminate the need for additional signage.
- Numbers and percentages for Player, Banker and Tie Bets are displayed in a graphic form.
- The occurrence of Naturals, Banker and Player pairs are tracked for the shoe and the last shoe as well.
- The number of hands per shoe and previous shoe statistics ensure that players get an overall vision of the trends and tendencies.
- An optional timer can be activated to automatically create a "no more bets" scenario.
- Customized promotional messages can be displayed when table is not operational.

Panda 8 and Dragon 7 Tracking

The EZ TRAK ensures that players get the critical information needed on the popular EZ Baccarat side bets: the Panda 8 and Dragon 7.

Statistically, a Panda 8 occurs approximately three times in a shoe and a Dragon 7 occurs approximately twice in a shoe so EZ TRAK displays:

- the hand in the shoe when the last Panda 8 and Dragon 7 hit;
- the number of Panda 8's and Dragon 7's that have hit in the current shoe;
- the number of hands so far in the shoe;
- all the statistics of the Panda 8 and Dragon 7 for the previous shoe.

DEQ Systems Corp. is a global provider of gaming technology in over 30 countries. Protected by more than 20 patents in 50 countries, DEQ specializes in progressive and random bonusing systems for table games. DEQ's innovation and ingenuity has been to replace the single dollar coin slot and sensor with its internationally award winning G3™ technology. The G3 incorporates multiple credit betting, dealer hand betting and mystery bonusing. DEQ also commercializes technology and patents including the award winning baccarat revolution, EZ Baccarat™ and related auxiliary products such as EZ Trak™. DEQ is and will continue to lead innovation in the table game bonusing segment of the global gaming market.
